RESEARCH INTERESTS

Currently, I am a Ph.D. student at Queen's University and Postgraduate Affiliate at Vector Institute. My primary research interests include self/un-supervised learning, computer vision, video understanding, and multi-modal (vision+x) representation learning. Additionally, I am interested in the areas of continual learning, generative models, and time-series representation learning among a few others. Recently, I have also grown interests in the areas of responsible AI including privacy, fairness, and robustness of deep learning models.
