EXPERIENCE

Research

- I am a Research Assistant at *Ingenuity Lab* and *AIIM Lab* at Queen's University. My research is primarily focused on self-supervised learning. Currently, I am working on self-supervised learning in computer vision, specifically interested in multi-modal (vision + x) self-supervised frameworks to learn meaningful representations without (or with minimal) human supervision. Please see my [website](#) to find out more about my research.
- I am an affiliated member at *Vector Institute*.
